## Schwerdt, Soutar add to Knowledge of Bavarian

Leave it to former foreign catalog editor Bob Schwerdt (505L) to come up with a new perfin from Bavaria. The B.R. shown here

turned up in that "small box" of perfins Schwerdt acquired recently (see the November December 1999 *Bulletin*). Gerald Soutar ((#68L) has provided us with help on three previously unidentified Bavarian perfins. The catalog numbers are from the catalog of Bavarian perfins published in 1990 and updated in 1997. Pattern F7 (F.B) is now identified as that of Franz Bieber, Fahrräder, Fahrradteile, Motormaterialien en gros; Fabrikation, of München. Pattern I3 (IL) is now known to be that of J. L. Lehmann, Spiegelfabrik, Glasschleiferei, of Fürth. Pattern M5 (M.A.) is tentatively identified as that of M. Adelung of Fürth, but the business of the user is not known. The Bavarian catalog is available through the Perfins Club publication sales department. The cost is \$10.50 postpaid, including the 1997 update to the original 1990 catalog. Contact Jackie Ryan at the address on the back page.
